Regionalization is direct in Greece and also to the names of former Greek city-states, etc., outside modern Greece, e.g.:
Sculpture, Greek--Pergamum.
This rule applies even where a ref. in OAG directs the use of a modern form such as Taranto, Italy (ancient Taras, later Tarentum after Roman conquest 272 B.C.):

Spiritualism Reg.

Here are entered works on Spiritualism as the belief that the spirits of the dead can and do communicate with the living by means of material manifestations.

For communications with other intellects throughout the universe by communication that is wholly mental, see
Mental communication

For the philosophical theory that spirit is the ultimate reality, see Idealism and the related subjects referred to under that heading.

For spiritualism as a way of life, see
Spiritual life

Here are entered works on that system of employers liability wherein the economic loss occasioned by an industrial accident is borne, at least partially, by the industry, workmen's compensation being defined as "the indemnification of a workman or his dependents by an industry for any economic loss due to injuries suffered because of his connections with the particular industry."

Workmen's compensation is sometimes extended to cover loss due to illness. For workmen's

LMB: DO NOT USE THIS DATE

LC: World politics, 1955-

I find no justification, from standpoint of history, for dating this subject from 1955- . Our previous dates, 1789-, 1871-, 1914-,1919-,1945- , represent rather clear-cut historical periods. Our present file, dated 1945-,is about 1/4 drawer. Since most books with this subject begin with, or use post-war introductory material, I think to use 1955- might be confusing since very few books on subject actually begin with 1955.
